# **Bajaj Auto At 2010 Auto Expo**

[Bajaj Auto](#) is showcasing its complete product line from all its brands - two wheeler, KTM, Kawasaki and RE at the Auto Expo. Their stall was setup up in a unique way with all the bikes facing the skies. What was striking though was the KTM 990 Super Duke and KTM 690 Supermoto amongst the Pulsar siblings. The [Kawasaki Ninja](#) as always drew a lot of attention from passers by. Bajaj hasn't unveiled or shown any new concept at this Expo and we were disappointed to find no Concept Pulsar 250/350 at their exhibit.
