New Bajaj Scooter To Take On Honda Activa

Bajaj Auto is developing a new scooter in a joint venture with a Chinese company. However the new scooter is atleast two years away from launch. Knowing Bajaj and their punctuality we doubt the scooter will be launched on time. Bajaj view Activa as the most successful scooter in the Indian market and will position the scooter against the Honda Activa. Bajaj has started making bikes from its facility in China. The first shipment of 1,000 bikes made in China have been shipped to Nigeria through India.
