# **Naked Bajaj Pulsar 220 S Pictures**

The naked version of the [Bajaj Pulsar](#) 220 will be launched by the end of this month but you can check out the bike even before it hits the probiking showrooms. The [Bajaj Pulsar](#) 220 S is essentially a Pulsar 220 with the front of a Pulsar 200. Everything else remains the same, the engine, the specs and the tyres. Apart from a different exhaust and a slightly faster and zippier performance (thanks to being lighter), the cheaper version of the 220 (@ Rs. 73,000/-) is sure to please 200 fans.
