# **Bajaj XCD Sprint DTSi Launch On 21st January**

Bajaj will launch the XCD Sprint DTSi on 21st January. The XCD Sprint DTSi will come with a number of features. The 135cc DTSi engine produces 10.5hp of power and is expected to give a mileage of around 60-70 kmpl. The XCD Sprint will have a 5 speed gearbox. It will sport a digital cockpit, nitrox rear suspension, low-friction front suspension, twin pilot headlamps and LED tail lamps. The bike will roll out from Bajaj's Waluj plant and will also be produced at Pantnagar from February. It will be priced at Rs 45,000.
