**Technically balanced like the Yamaha R15**

501 of you would want a bike to have a wider tire like the FZ16, whereas 212 would want a tire which would grip more rather than just look macho.

**The Second Poll :-**

**Total Votes: 689**

 **31.6%**  
**Suzuki Hayabusa**

 **68.4%**

The results of the second poll were quite suprising. 218 of you would choose the Suzuki Hayabusa, whereas 471 of you would take the Yamaha R1. Looks like power is not everything. Thanks for voting and make sure you leave your valuable vote on the new poll.
