Bikes At 2010 Relio Quick Auto Mall Mumbai

The 2010 Relio Quick Auto Mall commenced today at the Bandra-Kurla Complex in Mumbai. It is open to the public for the next two days so if your in Mumbai, go have a look. And if your not in Mumbai (or if your lazy) then sit back and relax as we have covered the complete event for you. There is nothing really different or out-of-the-box in the event. It is just a platform for buyers and sellers to interact and enthusiasts to ogle at the fine machines on display (like the CBR Fireblade). The only thing different in the bike section was the presence of Honda who not only had got their complete line-up but was also having a complete section dedicated to demonstrating **safety** and **stunts** (We know it sounds little weird saying both those words in the same sentence).
