Harley-Davidson XL 1200N Nightster

Harley-Davidson XL 1200N Nightster is one of the coolest bikes from Harley-Davidson's Sportster range. This cruiser from Harley-Davidson comes with a 1200cc Evolution engine which produces 70bhp. But power is not what you look for in a cruiser. This bike has enough torque to get moving with the twist of the wrist. The bike costs around \$10,000 but when will Harley launch it in India? Well not in the near future.
