New Honda Aviator Launched With 110cc Engine

Honda has unveiled the new Aviator which is powered by the 110cc engine from the Activa and delivers 8bhp of power. The new Aviator will give 15% more mileage thus making it even more economical than the previous model. The new Aviator features Combi-brake, front Disc brake with 3 piston calipers, alloy wheels (in Deluxe variant), Viscous air filter, Maintenance-Free battery, Tuff Up tube and front telescopic suspension.

New Aviator adheres to BS-III norms which will come into effect from April next year. The scooter will be available in 5 colours – Neo Orange Metallic (new), Pearl Heron Blue (new), Rebel Red Metallic, Pearl Black and Monsoon Gray Metallic. The Aviator Standard costs Rs. 42,160/- whereas the Aviator Deluxe costs Rs. 47,160/- (all prices ex-showroom, Delhi).
