Kawasaki Ninja 250 Launch In May

Bajaj Auto will launch the much awaited Kawasaki Ninja 250 in May. Unlike what Bajaj had planned earlier the baby Ninja will not be assembled in India. This will lead to the price being higher than expected earlier. The Ninja 250R also known as the best 250cc bike in the world will cost at least Rs. 2.5 lacs OTR.

"The Kawasaki Ninja 250 will be launched soon by May or June and is likely to be priced above Rs 2 lakh," Mr Rajiv Bajaj, Managing Director, Bajaj Auto said.

Bajaj will assemble KTM's bigger bikes, like the Duke and RR, at their Chakan facility.
