Royal Enfield To Launch Desert Storm Classic

Royal Enfield had recently announced a new colour for the Classic 500, the Classic Chrome. However the company plans to launch the desert storm colour as well on the Classic. The new desert storm colour is nothing but sandy beige with matte finish. The colour looks smashing to say the least. However, it still falls short of the presence offered by Military Olive Green. The Military Olive Green is on sale in export markets and **Royal Enfield** cannot launch it in India as the colour is reserved for the armed forces. Thus, to satisfy our crave for military green, the company plans to offer desert storm, which comes a close second on the hot looking Classic. Do you like the new colour?
