[/caption]

TVS is all set to launch a higher powered version of the **Apache** by Diwali. This high powered version will be called as **Menace**, and will have a **180cc FI** engine producing 18bhp. Also on the cards is a 200cc version of the Apache.

It is expected to be priced around 75000 and should be able to hit a top whack of 135kmph. Thats not all, it will be lighter and thus certainly faster. This bike is likely to have projector headlamps, front and rear disc and wider rubber.
