TVS Apache RTR 250 Details & Specs

Yes, we have got the details and specifications of the upcoming high performance Apache bike. Although there were speculations that the next high capacity [Apache](#) would be powered by a 220cc mill, the truth is far from it. TVS Motors has plonked in a single cylinder, 4-stroke 250cc mill which produces 30bhp at 9500rpm and 2.2kgm at 8000rpm leading to a top speed of 150 kmph. The engine is mated to a 6-speed gearbox and the bike weighs just 140kgs with 16 liters of fuel capacity. The front suspension uses telescopic forks whereas at the rear monoshock rectangular swingarm does the job. The front gets 290mm discs and the rear discs are 220mm (ABS will be optional). Front tires are 100/80 x 17 whereas the rear tyres are 130/70 x 17 bolted onto 6-spoke alloy wheels. Price is expected to be close to Rs. 1,20,000/- and the launch will happen next month.

What do you think the Apache 250 should feature? What do you think should be the price range of the bike?
