TVS Apache Velocity 160 Concept

TVS Motors displayed the Apache Velocity Concept at the Kakarta Motorcycle Show. As can be seen, the Apache Velocity is a modified version of the Apache 160 featuring a few add-ons which make it look extremely pleasing, aesthetically. The Velocity Concept features a more roundier tank, wider handle bar, bigger petal discs front and rear, extended silencer with dual outlets, monoshock, upside down forks and wider tyres.
