Yamaha India Launches SS125

MotorBeam.com

Riding the wave of sports biking and adding more zing to its portfolio, Yamaha India has introduced SS 125 packed with the advantages of 4-stroke, 125 cc, 11 PS, 5-speed bike; the Stylish and Sporty SS125 is a unique combination of sports biking and style. The SS125 has been designed for substantial and overall improvement in running performance, overall sporty design and product reliability with added features and advantages of practical functionality of commuting bikes, such as fuel economy and cost effectiveness. If you notice closely the SS125 is nothing but a re-named Gladiator with a sticker job and you are completely right.

MotorBeam.com

SS125 showcases benchmark of 125cc styling, refinement and a free-revving 11 bhp engine with Yamaha Throttle Position Sensor (YTPS) that delivers stupendous standing acceleration. 5 speed gearbox allows the rider to make the most of a wide power band to experience excellent performance in both around-town and high-speed riding. With the Aerodynamic racy under-cowl, SS125 is ergonomically designed. Sporty Tachometer, Lowered front cowl, Lightweight Aluminum wheels and powered front Disc Brakes gives it a dynamic yet sophisticated demeanor.
