Aston Martin One-77 More Pics

New pics have surfaced of the [Aston Martin One - 77](#) along with a few specs. This is simply one of the best looking cars showcased at the Paris Motor Show.

The one - 77 will be powered by a 7.3-liter V12, as opposed to a 7.0-liter unit, putting out 700 hp and 553 lb.-ft. of torque. Power will be channeled through a rear, mid-mounted six-speed automated manual transmission, featuring Auto Shift Manual and Select Shift Manual (ASM/SSM), and controlled by an electro-hydraulic system.

This stunning beauty will be available in left- or right-hand-drive, but seating will be limited to two. The exterior body panels will be made of handcrafted aluminum, while the monocoque body structure will be fashioned from carbon fiber. A deployable rear spoiler, adaptive suspension, carbon ceramic brakes and stability/traction control are all part of the package, and the One-77 is expected to burn your wallet by just over 3,300 pounds.
