# **Audi Opens Showroom In Jaipur**

Audi India has announced the opening of its new showroom in Jaipur. Spread over total area of 7800 sq. ft. the facility is based on the unique Audi Terminal concept with the honeycomb aluminium façade on the exterior. With a display area that can accommodate 8 Audi cars, the showroom will display the entire model range of Audi cars available in India. The showroom will also house an Audi Shop and the Audi Exclusive Elements, where customers can order customised products and purchase a variety of Audi branded merchandise.

"I am delighted to announce the opening of our new showroom in Jaipur - the capital of royalty and luxury. Rajasthan, the land of Maharajas, has been setting the standards for luxury in India for centuries. We see a huge potential for growth in this market and are happy to have found the right partner in Kamal Autotech. Their rich experience of over 75 years in auto retail and their royal associations across the region makes them the ideal partners for Audi in Rajasthan," Michael Perschke, Head (Audi India), said.

The service facility, located at the same site, is spread over an area of 7500 sq ft as per Audi standards and a total of 6 bays have a capacity to service 10-12 cars per day. The technicians, trained by Audi, ensure the proper use of approved repair equipment, tools and technologies to meet Audi standards. Audi India is focused to expand its network in India. This year the company opened new showrooms in Mumbai, Kolkata and Bengaluru while Delhi, Chennai and Ludhiana are on the horizon.
