BMW To Launch New X5 In India

The BMW X5 has got a mid-life facelift internationally and we can expect the new version to hit our shores soon. The changes are very minimal and include larger air ducts, altered headlights and tail lights, new rear bumper, new interior trim, latest iDrive system and park assistance system. Along with these changes, the new X5 also gets the latest engines and an 8 speed automatic gearbox. Prices are expected to go north marginally.
