BMW India Launches X6

BMW India has launched its new X6 crossover at its new showroom in Mumbai. The car will be available in two variants and is imported. The 5.0 litre petrol will be sold at a price of Rs 82,90,000 and the 3.0 litre diesel will sell at Rs 65,90,000.

Both the variants are available with BMW's all-wheel drive xDrive system which provides better traction, stability and increases safety by detecting when the tyres are about to lose traction and cutting power to the spinning

wheel. The petrol variant (xDrive5.0i) is powered by a twin turbo V8 that produces 402 bhp while the diesel (xDrive3.0d) has a six cylinder engine producing 231 bhp.
