Bugatti Veyron Lands In Hyderabad

Tagged as the maker of fastest car of the world, Bugatti recently caught the frenzy of the auto enthusiastic crowd when the company announced that it is offering test drivers of the famous model, the Veyron in Mumbai. We recently brought you the news of Bugatti offering test drives for its model, the Veyron Grand Sport. Now, after giving the Mumbaikars a feel of what it is to be like inside a car that does a top speed of 407 km/h, it is time now for the Hyderabadis to get a feel of the same.

Flown directly from France by the company, the Veyron Grand Sport with a removable hard top was put up for display only for a select group of people at a star hotel on Sunday night in the city. The Veyron with its hefty price tag of Rs. 24 crores (after levying the duties imposed by the Indian Govt on 16 crores) was available to be experienced by only a select few Hyderabadis mostly auto enthusiasts and affluent people who could afford to buy such a vehicle. The Grand Sport is very aerodynamically designed which helps it to attain such high speeds and only 300 of such models have been manufactured by the company. The test drives mainly took place at the outer Ring Road in Hyderabad only to account for the very low ground clearance of the model. The vehicle is expected to remain in the city for few days before being transported to New Delhi.
