Chevrolet Beat Diesel Website Goes Live

General Motors are still a week away from launching the Chevrolet Beat Diesel in India but that does not stop them from updating the website with the details of the diesel Beat. The American automaker is inviting people to leave their details for a test drive even before the launch. Some dealers are also offering test drives and taking advance bookings of the Beat Diesel. The company talks about the advantages of the Smartech diesel engine in the Beat Diesel. All the details of the car are out already except the most crucial, pricing. You can access the website [here](#).
