Chevrolet Beat Reaches Service Center

Team-Bhpian [Jebs](#) has snapped the upcoming mini car from Chevrolet at a service center in Chennai. The [new mini car](#) to be called Matiz seems to a total stunner. It will be the first hatchback to have a digital speedometer like the [Honda Civic](#). However there are visible drawbacks like gaps in the bumper, rubbery looking gear knob and very silly rear door handles. Still we feel GM has an awesome car at hand which will rock the B segment when this car gets launched soon.
