GM To Launch Chevrolet Beat On 4th January

GM India will launch the much awaited small car Beat on the 4th of January just before the Auto Expo commences. The [Chevrolet Beat](#) will be available in three variants - Base, LS and LT with thrust coming in from a 1.2L petrol mill having 80bhp of power and 106Nm of torque. With small cars mileage is a foremost requirement and the Beat doesn't stay behind with ARAI certified figures of 18.6kmpl. The car recently earned [4 star rating](#) in Euro NCAP crash tests. Checkout the high resolution picture gallery of the Beat [here](#).
