Chevrolet Corvette ZR1

At the Nürburgring, the Chevrolet Corvette ZR1 has gone faster by four seconds over its previous lap time of 7:26. The new time, with Jan Magnussen at the wheel, is a claimed 7:22.4 for the full 12.93 mile loop. The car is very fast but .3 seconds off Dodge Viper ACR's timing.

The timing is faster than Porsche GT2's 7:32 and Nissan GTR's 7:29 so the Corvette ZR1 surely seems to be quite fast.
