GM Produces 1,00,000th Chevrolet Spark

GM India has rolled out the 1,00,000th Chevrolet Spark from the company's Halol plant in Gujrat. The Spark has done exceedingly well in the market as an entry level hatch and more so due to Chevrolet's 3 years zero maintenance service package. The Chevrolet Beat may have eaten into the Spark's sales but with the Electric Spark on its way, the Spark is here to stay for a while.
