Novitec Rosso Ferrari 599 GTB Fiorano

German tuner Novitec Rosso has tuned the Enzo engine equipped Ferrari 599 GTB Fiorano. The result is 808 HP and 823NM of torque. The 6.0 liter four-valve V12 engine of the 599 is supercharged with two compressors for boosting performance and help achieve a 0 - 100kmph time of 3.5 secs and top speed in excess of 340kmph.

The tuning is accompanied by an aerodynamic-enhancement kit developed in the wind tunnel, three-piece 21-inch wheels with correspondingly calibrated sports suspension, a high-performance brake system, and exclusive interior options. All this for just \$60,000.
