# Teaser - We Road Tested This Car

The image is not at all camouflaged and its going to be very easy to guess the car pictured above, so go ahead and write your answers in the comment box below. Comments won't appear for some time so that everyone gets a chance to post their answers.

**Update** - Most of you are getting the answers right. Here is another picture of the car.

Almost all of you got the answers right. Yes its the [Fiat Linea](#), but not the 1.6, its the Linea 1.4 Petrol. Review will be added tomorrow. Meanwhile you can checkout the car in action on the videos section on the right sidebar or [over here](#).
