www.fiat-india.com

Looks like Fiat India is clearing its inventory of the Palio which will be making way for the [Fiat Grande Punto](#). The deal surely seems sweet if you don't mind the outdated interiors, high service costs and poor service. The 100bhp hot hatch Palio 1.6 at Rs. 4.05 lakhs is an absolute steal but the [Fiat Palio Diesel](#) at Rs. 4.11 lakhs is even sweeter. The 1.3 litre Multijet in the Palio is the same engine used in the Swift diesel and Fiat claim a mileage of 20.5kmpl, a little optimistic, 18kmpl will be more like it. Still, the Palio won't really set the sales chart on fire.
