# Ford Upgrades Fiesta SXI

Ford India has given the [Fiesta](#) SXI a slight upgrade with a new look in chrome and silver finish. The new front-fascia with the chrome façade and dramatic crystal barrel headlamps is visually strong. Inside, the new Fiesta SXI surrounds its occupants with grain beige leather interiors, mahogany wood-finished center console with brushed aluminum finish adorning knobs, vents and the steering wheel. The 2 DIN MP3 player has Aux-in capability.

"The new Fiesta SXI will make a statement with its premium new style persona. Based on our customer feedback, the new Fiesta SXI has been introduced to appeal to the young, suave and style-oriented professionals who want their cars to reflect their individual personality, signifying success, confidence and accomplishments," said Nigel Wark, executive director, Marketing, Sales & Service, Ford India.

The new Fiesta SXI comes with the advanced and efficient 1.6 Duratec (petrol) and 1.4 Duratorq (common-rail, turbo diesel) engines. The top-end SXI variant has been priced at Rs. 6.99 lakhs (petrol) and Rs. 7.99 lakhs (diesel) (ex-showroom, New Delhi) and will be available at Ford dealerships across India starting 3rd August.
