# Ford Figo Contest - Day 2

We head onto Day 2 with the Figo and we are having a fun time for sure. All of us have certain places in our head which hold some value, be it emotional or maybe its just a place where you want to chill and relax. Keeping that in mind, we decided to head to one of our favorite driving spots in the city. In a city like Mumbai, its almost impossible to find a place which is scenic, relaxing and close to nature. Fortunately we have a place which gets a wee bit close to this and we take the Figo around for a drive.

This place is close to the Mumbai - Pune highway and is located in Navi Mumbai. Winding roads, sweeping corners, breathtaking view are just a few highlights of this place. Roll your windows down and crisp fresh air is a welcome change for your lungs.

*Question time now.*

**Q. Which is your favorite driving location and what makes it special for you?**

Get going. Based on yesterdays answers we are sure you are having a good time participating.
