[General Motors](#) South Korean division, GM Daewoo Auto and Technology (GMDAT) will recall 45,957 units of the Captiva (sold as the Winstorm) due to defects with the steering system and 12,604 units of the Cruze (sold as the Lacetti Premiere), due to defects with fuel supply pipes in South Korea. The recall applies to cars produced between September 25, 2009 and March 2, 2010. The Captiva and the Cruze with the same defects would be recalled in overseas markets as well.
