# **Honda Jazz Gets A Facelift In Malaysia**

Honda has given the Jazz a facelift in Malaysia. The facelifted Jazz will grace the roads of India soon, however we won't be getting the 1.5 liter, iVTEC motor. The sales of the Jazz have been absolutely dismal, and a more powerful engine would only lead to increase in prices and further reduction in sales. This 2012 Jazz has slight changes to the exterior and the interior including new grille, bumper and colour schemes. Hopefully Honda won't hike the prices with the launch of this new version.
