Hummer H3 On Wooden Wagon Wheels

Hummer is known for sporting bling 22 inch wheels but Matthew Harrison thinks he has created a piece of art fitting wooden wagon wheels to the H3. This woody Hummer H3 is on show at the fifth Zoo Art Fair in London.

Harrison said that he combined the Hummer's off-road credentials with 'Wild West' wooden wheels to create 'a sculpture that is a mixture of art, engineering and motoring. But i am no quite sure whether the Hummer can go off road on these shoes.
