Hyundai India Offers 5 Years/100,000Km Warranty

Hyundai India is once again setting the benchmark by being the first automobile manufacturer in India to offer 5 years or 100,000kms warranty for its privileged customers. The Power Train and Comprehensive Extended warranty schemes are available for owners of the [Hyundai i10](#), Santro, Getz Prime (petrol), Accent and the Verna for a period of five years. These schemes will ensure that the owners of Hyundai cars can avail of maximum warranty for their cars with minimal cost implications. This is the first time ever that a manufacturer is offering a long term warranty for full five years.

The schemes have been designed to ensure peace of mind for Hyundai customers ensuring that it suits their requirements and the car gives trouble performance for its ownership period. The Comprehensive Extended Warranty scheme is a full protection scheme which covers the entire car right from the mechanical, the electrical to all other parts including the engine and transmission, for a period off five years or 100,000km whichever is earlier.

Additionally, for all those customers who do not want a full comprehensive warranty covering the entire car there is partial extended warranty (The Power Train Warranty) for the entire power train which will cover the engine and transmission parts at a minimal cost for a similar period of five years or 100,000km which ever occurs earlier.
