Hyundai To Give i10 Minor Facelift

Competition can make others smart or so they say. A new trend in the life cycle of cars is the mid life minor change, better known as MMC and the [Hyundai i10](#) is no exception. In order to keep the car looking fresh, Hyundai will give the i10 a minor facelift. The facelift will be mostly cosmetic with new headlights, taillights, chrome here and there and some new seat covers. A diesel is on the cards too but all this will come not before 2010.
