Hyundai To Launch i10 Diesel In 2009

1.1 CRDi DIESEL ENGINE

Using variable geometry turbo charger, the new 1.1 liter DOHC diesel engine has outstanding power and fuel economy.

Maximum Horse Power 75ps@6,000rpm

Maximum Torque 15.5kg.m@2,000rpm

As posted earlier about the [Hyundai i10 diesel](#), Hyundai will be launching the i10 diesel next year after they launch the i20. The 1120cc 3 cylinder engine is expected to have 75PS of power @ 4000RPM (not 6000RPM) and 155NM of torque from 2000RPM. This will be the smallest CRDi engine and should have excellent fuel economy. The i10 diesel will be priced Rs. 75000 more than the petrol i10.
