# Hyundai i20 3-Door

What you see are unofficial official pictures of the Hyundai i20 supermini. Official because they are official pictures from Hyundai, unofficial because they were leaked. The 3 door i20 looks quite similar to the 5 door version, minus 2 doors and restyled rear quarter windows. Hyundai wont be launching this in India, but we think they should, something on the lines of a limited edition with a high revving engine.
