Hyundai i20 Exclusive

The **Hyundai i20** will be launched on 29th December. However we saw a i20 on the road. The i20 we saw was a Asta model with ABS. It was running on 14 inch wheels. Tyre width was 185mm. It looks pretty good in person and looks quite big. I wonder whose i20 this is, it carried a temporary registration number. Hyundai have a winner on their hands, now only if they price it right and give it the diesel engine soon.
