Hyundai To Launch i20 1.4 AT

Hyundai India will launch a more powerful version of the i20 petrol. The [Hyundai i20](#) is currently powered by the 1.2L Kappa engine which gets excise duty benefits. However the new engine won't get any such benefits. The 1.4L i20 will be equipped with automatic transmission, a first for the segment. The i20 1.4L will not have a manual transmission variant. The 1.4L engine generates 99PS@5500rpm and 137NM@4700rpm.
