More On The Hyundai i20

The [Hyundai i20](#) will be initially launched with a 1.2L Kappa petrol engine. The same engine found in the [Hyundai i10 1.2](#). The launch of the diesel i20 will depend on the success of the petrol i20. If the petrol i20 is a success then Hyundai won't launch the diesel immediately and will wait for 6 months to launch the diesel. If the petrol i20 doesn't do well Hyundai will launch the diesel asap. The price of the base i20 is expected to be around Rs. 5.5 lacs.
