Land Rover Introduces Armoured Discovery 4

Land Rover is enhancing its range of factory supported armoured vehicles with the launch of the powerful new Discovery 4 Armoured. Replacing the successful Discovery 3 model, the Discovery 4 Armoured offers the same legendary all terrain capability and protection, but features an upgraded specification. The Discovery 4 Armoured offers a more powerful 5.0 liter LR V8 petrol engine, improved passive safety with an airbag restraint system for driver and front passenger, and a more luxurious interior with premium leather seats.

With discreet armoured and a generous 500kg payload, the new model provides highly versatile, safe and comfortable transportation for five people and their luggage. Benefiting from Land Rover's extensive experience in the armoured vehicle market, the Discovery 4 Armoured is supplied with a full three-year, 80,000km factory warranty on the base vehicle and armour, along with comprehensive after-sales support from specialised

technicians.
