Mahindra Scorpio Is Google Street View Camera Car

Google Maps with Street View is the next big project at [Google](#). The company is snapping all the streets of the world and is using a Mahindra Scorpio to do so in India. This helps users explore places around the world through 360-degree street-level imagery. Its just last month Google India announced the commencement of image collection in Bangalore. But the car was spotted in Hyderabad by avid MotorBeam reader, Mr. VK Chaitanya. In U.S. and U.K you can almost browse all the streets as the company has completed snapping most of the streets. Hopefully this feature will go live in Google Maps for India soon.

Google Street View In Action
