# **Mahindra To Ramp Xylo Production**

Mahindra and Mahindra has said that it was ramping up production of the Xylo in a bid to reduce the waiting list for the product. The auto-maker said that it "has the lowest inventory level with dealers probably in history."

"For the Xylo, we have a waiting list of five weeks. We are now trying to lower that. We are already doing that (ramping up production)," Mahindra and Mahindra's Vice Chairman and Managing Director, Anand Mahindra said. "Our inventory with dealers is lower than what we targeted because we were apprehensive about where the market was going," Mahindra said.
