Mahindra Xylo Launched In Nepal

The Mahindra Xylo is sure going places. After its launch in India in January 2009, Mahindra has been launching the Xylo in quite a few places like [South Africa](#) and Bhutan. Now Mahindra has launched the Xylo in Nepal. The Xylo is a versatile and spacious car which is set to redefine road travel in Nepal. Agni Incorporated Pvt. Ltd., the current distributor of Mahindra vehicles in Nepal, will be the local distributor for the XYLO. Customers will have a choice of two Xylo models - a luxury 7-seater model, the E8, and the 8-seater model, the E2.

"We are delighted to extend our association with Mahindra in Nepal, where it has been a respected brand name for over 15 years. The fuel efficient and feature rich Xylo is suitable for both young professionals and families and is ideal for cross country travel as it offers an extraordinary level of luxurious comfort at a very cost effective price," said Cabinet Shrestha, managing director, Agni Incorporated Pvt. Ltd.

Mahindra has invested more than US\$ 100 million in the development of the Xylo, which included setting up a new robotic body shop at its Nashik plant in India, as well as an additional trim line at the final assembly shop. Over 200 dies and more than 1,000 new parts were developed for the Xylo.
