# **Mahindra Xylo Specs & Features**

The Mahindra Xylo will be launched on the 13th of January. Bookings of the Xylo have already started though. The Mahindra Xylo has an m\_eagle engine with a displacement of 2.5L which produces 112bhp at 3800 rpm and max torque of 240Nm from 1800rpm to 3000rpm. The Xylo will be available in 4 variants - e2,e4,e6 and e8.

Xylo has a longer wheelbase than the Toyota Innova and the Xylo is expected to be the most spacious car in the segment. The Xylo has a seating capacity of eight, whereas the E2 variant of Xylo has optional seating capacity of nine. The Xylo does not come with automatic transmission nor four wheel drive but Mahindra might add a variant later on.
