Chrysler has been in talks with Tata and Mahindra to dispose of its Jeep brand. However it seems that Mahindra is no more interested in buying Jeep. At the recent Bologna Motor Show, Mahindra & Mahindra sent out a message to Jeep that they can make a Wrangler on their own.

The concept looks alot like the Jeep Wrangler and the 12-foot long, 1.5 ton off-roader concept sports a 2.5 liter diesel engine with 108 hp of power and 250 Nm of torque. Mahindra will be entering the US markets next year. Check it out [here](#).
