# **We Are Driving The Maruti A-Star AT**

As we write this, Motorbeam's chief test driver is on his way to Agra from Delhi in the Maruti Suzuki A-Star Automatic. The A-Star Automatic will be launched this Sunday, giving the much needed independence to motorists from the clutch and gear lever. The automatic avatar of the A-Star will be available in VXi (ABS) variant only and will feature a 4 speed autobox. The A-Star AT has achieved a mileage of 17kmpl as per ARAI. It is expected to be priced very competitively as Maruti intends to take 50% car market share in India this year. Checkout the exclusive and very first pictures of the A-Star Automatic below.
