Maruti Suzuki To Launch Eco MPV

MotorBeam.com

[Maruti Suzuki](#) will launch the Omni and Versa replacement **Eco** at the upcoming Auto Expo. The Eco will be powered by the 1200cc K-Series engine which does duty in the Ritz. It is expected to be priced competitively at around Rs. 4.5 lakhs and will comply with Bharat Stage IV emission norms. The Eco has been specifically designed over a period of three years by Maruti engineers for the Indian MPV market. It will come with three row and two row seating configuration with seating capacities of five and seven passengers respectively.
