2012 Maruti Suzuki Swift DZire Rendered

We have already seen a spy shot of the upcoming all new Maruti Suzuki Swift DZire. The car certainly did not look impressive but now these renderings bring in some hope for prospective DZire buyers. The 2012 Swift DZire doesn't look all that bad in these rendered images. Yes, it could be much better but the target of keeping the new DZire under 4 meters has led to such a compressed boot. At the end of the day, the DZire will save on crucial excise duty which will result in savings for the customer.
