# **Bass Devil Swift By Rockford Fosgate**

The [Maruti Swift](#) is a tuners delight with a high range of modifications available and when Audio companies want to show off their portfolio, the Swift doesn't let down there either by being an excellent demo car. JBL has the Swift Twins (check them out [here](#)) and at the [2010 Auto Expo](#) Rockford Fosgate had showcased an insane audio system in a modified Swift. The audio system is equipped with PUNCH Series speakers, Rockford Fosgate Wiring and Capacitors etc. All this costs Rs. 4,00,000/- and the rest of the car modification along with the free hand paint job costs Rs. 6,50,000/-. The car was done up by AGM Technologies in Delhi.

**The equipment used in the Bass Devil (that is what the company has named the car) is as follows :-**

- 3 Pairs Punch Components Speakers

- 1 Pair Punch Oval Speakers
- 2 Pieces Punch Mono Amplifiers (500 watt RMS each)
- 1 Piece Punch 4 ch Amplifier (400 watt RMS each)
- 1 10 Farad Capacitor
- Pioneer P80RS headunit
- Rockford fosgate 0/1 gauge Wiring (Twisted)
