Maruti SX4 Diesel Receives 5000 Bookings

Maruti Suzuki has managed to receive 5000 bookings for the SX4 Diesel in just 20 days. Although the number of bookings for the Super Turbo SX4 is impressive, it does not give a clear picture of the success of the car. The initial euphoria is always there and most cars get good amount of bookings at launch. Will the SX4 Diesel sustain its sales in front of the Volkswagen Vento? Only time will tell.

"We have received an overwhelming response for the SX4 diesel. Our target was 2000 units per month but with this kind of response we will have to work harder to cater to the demand," Shashank Srivastava, Chief General Manager, Marketing, Maruti Suzuki India, said.
